

## Environmental Policy

We at S9 Design recognises that its operations and procedures may have a direct impact on the environment and has ensured that environmental management is paramount.

This policy outlines the company direction and support for environmental management and applies to anyone employed by S9 Design and any contractors working upon on behalf.

S9 Design commits through this environmental policy to adhere to the following:

- Working with manufacturers whom adhere to FSC regulations and are environmentally friendly in their approach to manufacture.
- Preventing environmental harm or pollution wherever possible
- Promote recycling and the use of recycled materials
- Ensure emissions to the atmosphere are minimised wherever possible
- Ensure that environmental issues are considered and minimise any environmental impacts on communities whilst managing our operations and procedures
- Protecting the environment, reducing waste, reducing the usage of natural resources and preventing pollution wherever possible, including switching to man-made materials where applicable
- Provide all training and information to staff and colleagues to ensure this policy is fulfilled

This policy is and will continue to be circulated to all personnel working for and on behalf of S9 Design to ensure our commitment to the environment is adhered to.
